Let U.S. LUMBER make your job easier

For over 30 years, U.S. LUMBER has successfully served the needs of building product dealers by providing a portfolio of unique offerings from the industry’s top-tier brands and manufacturers. As part of our continued commitment to providing our more than 4,000 customers with comprehensive market-driven solutions and services, U.S. LUMBER has partnered with JELD-WEN to bring you the best in what is one of the most compelling value propositions in the industry today: doors.

As partners, U.S. LUMBER and JELD-WEN bring together the most extensive selection of interior and exterior doors, with the finest variety of quality jambs, frames, casing, sills, glass and accessories to give the dealer an unparalleled range of superior choices. Our door facility is state of the art, designed with configuration flexibility as the number one priority and craftsman-level quality as the standard. Dedicated manufacturing space, WMS technology, the most advanced equipment available today and a team of experienced tradesmen give us the capability to build every design efficiently and with a unique attention to detail that will ensure customer satisfaction and long-term performance.

Better yet, we make your door business simple. Our team of dedicated door sales professionals is focused on your unique needs for training, quoting, sales and technical field support. In addition you can instantly access our customized online door configurator from our website 24 hours a day, seven days a week. With unlimited accessibility, you can efficiently design, quote and place orders for any standard or custom door from your office or job site. You can count on us to deliver your built doors complete, correct, on time, well packaged and ready to go for your customers—all with precision and accuracy.

At U.S. LUMBER, dedication to performance and preserving our values are paramount. As a “values” based organization, U.S. LUMBER is governed by a culture of mutual respect, a genuine appreciation for one another and is directed by a strong moral compass aimed at doing what is right. We diligently extend that circle not only to our employees, but also to our customers, our suppliers and everyone that we encounter across the industry.

U.S. LUMBER works tirelessly to be an essential part of your business.

Why buy JELD-WEN® interior doors

JELD-WEN has long been a leader in setting trends, most notably for the quality of our products. A deeper look reveals what makes these molded interior doors truly special.

SUSTAINABLE MATERIALS

Including sawmill chips, field chips and leftover wood, JELD-WEN® molded interior doors are made from wood that is the byproduct of other operations. It’s a sound logging practice that minimizes waste, enables forests to flourish and has been recognized with numerous certifications by SCS Global Services. This engineered wood fiber is molded under intense heat and pressure into a high-density fiberboard, assuring consistent quality from door to door, room to room and home to home. The doors resist shrinking, swelling, cracking and joint separation. All doors are available primed with a low VOC primer, ready to paint and can be specified in 1 3/8” and 1 3/4” thicknesses. All 1 3/4”-thick doors are available with 20-minute fire ratings and most designs are available with 45- and 60-minute fire ratings. More information can be found at jeld-wen.com. And we back it up with one of the best warranties in the industry.

ENGINEERED FOR HIGH PERFORMANCE

A commitment to excellence and innovation inspires everything we build. Each door is designed for ease of operation, low maintenance and beauty that stands the test of time. A wide range of colors, hardware and hardware finishes help you make the statement you want, in styles ranging from contemporary to classic.

PROCORE®

The solid core construction of this upgrade option reduces transmission of sound by up to 50 percent as compared to a hollow core door. A ProCore® door adds privacy, peace and quiet and stands up better to the dents and dings of daily life. It helps create a sanctuary for any room in your home.

For the full line of interior doors, visit jeld-wen.com.

For additional information, including a complete copy of JELD-WEN’s Limited Warranty and care and maintenance information, please visit jeld-wen.com or jeld-wen.ca or contact JELD-WEN at 1-888-JWHelpU (1-888-594-3578).

Doors for the detail-oriented

Molded door features

STICKING PROFILES
Whether traditional or contemporary, JELD-WEN has sticking profile options that will distinguish the interior of your home with beautiful quality and attention-to-design detail.

SURFACE TEXTURES
Smooth
Smooth surface doors give your home a clean, streamlined feeling. They feature the classic look of painted wood doors.

Woodgrain
JELD-WEN® interior doors with textured surfaces emulate the look of solid wood doors. Each one has a deep, woodgrain appearance.

SIZING INFORMATION

Solid and lited doors all come in heights of 6' 8" and 8' 0". Widths of 1' 6", 2' 0", 2' 4", 2' 6", 2' 8", 3' 0". Thickness of 1 3/8" and accent bars widths in 2" and 3 5/8".

SOLID PANEL
Twenty-one designs help make MODA™ doors uniquely your own. The solid panel option provides privacy and reduces sound transmittance.

CLEAR GLASS
Designed to open up sunrooms and hallways, the clear glass option will flood your home with light in any door style.

TRANSLUCENT GLASS
Add drama to any room while maintaining a level of privacy with this frit glass option, available in all 21 MODA™ door styles.

MODA™ Collection: 180° from ordinary

Whether you need privacy or a little extra light in a room or hallway, a consistent design will accentuate your home’s decor. Wide or narrow rails, a contemporary square sticking profile and V-groove accents at the stile and rail joints make these doors design elements within the home. And with solid, engineered construction, these doors are as strong as they are beautiful.
MODA™ door styles

Modern styling characterizes these MODA™ Collection doors. Traditionally crafted with quality stile and rail joinery, these timeless designs will sit comfortably in most architectural styles. Opt for a panel or a glazed door with clear or translucent glass for an effortless way to personalize your space.

**Features**

Tria™ doors offer more design options than any other door category. Ask a sales associate for more information about customization. All doors, including custom designs, come primed and will need to be painted.

- Hundreds of patterns
- Seamless, solid surface
- Simulated raised panels
- Two etched profile choices
- Crisp, clean lines
- Square profiles
- True shadow lines
- Shaker panel design
- Dramatic contours
- Three moulding options
- Real inlaid pieces
- Precision detailing

**Design Options**

| Matched pairs | Glass* | Delivery with no extended lead times |
| Split designs | Louver | 1 3/8” or 1 3/4” door thickness |
| Arch and radius tops | Mirror | Standard heights: 6’ 8”, 7’ 0”, and 8’ 0” |
| Chalkboard/dry erase | Standard widths: 2’ 0”, 2’ 4”, 2’ 6”, 2’ 8”, 3’ 0”, 3’ 6”, and 4’ 0” |

*1/4” clear tempered, white laminated, F516 obscure, reed and rain glass available to replace any square panel in infinity raised molding or ovation with your choice of sticking.
Door styles

**THE C-SERIES**
Solid surface, seamless construction that features more than 120 design options. Each door is individually carved—raised panels provide definition and the core means enhanced sound reduction.

**THE L-SERIES**
Clean, crisp lines and square profiles in a Shaker panel design. A one-piece face surrounds the entire door, meaning no unsightly gaps in presenting a modern look.

**THE R-SERIES**
The same panel design can have many looks just by changing the sticking or panel detail.
Barn door kits

Create a striking focal point with the easy-to-install JELD-WEN® barn door. With both modern and rustic style options, entryways become design elements and conversation pieces. The remarkable craftsmanship and industrial touches create a stunning visual while maintaining desired privacy. Space-saving design makes them a practical choice for interior spaces or studios.

**MODERN BARN DOOR KIT**
The modern barn door kit slides right in to a contemporary setting. Primed and ready to paint, it can be easily installed in no time.

- Doors come in sizes of 30” x 84” and 36” x 84”
- Includes satin nickel handle and hardware
- Primed solid core door
- Door kits sized to fit maximum door openings of 24” and 30” for a single door

**RUSTIC BARN DOOR KIT**
The rustic barn door kit adds cottage romance to any room. Unfinished and ready to paint or stain, it opens up a number of style possibilities to meet the needs of your home.

- Doors come in sizes of 36” x 84” and 42” x 84”
- Includes matte black handle and hardware
- Unfinished white cedar solid wood door
- Door kits sized to fit maximum door openings of 30” and 36” for a single door

**GENERAL NOTES**
- Standard hollow core molded slabs have single fiber stiles, single fiber top rails and bottom rails
- Standard solid core molded slabs have single wood stiles, single wood top and bottom rails
- Standard flush birch slabs have single wood stiles, single wood top and bottom rails
- Hinge reference point is from top slab to top of hinge mortise
- Bore strike reference point is from top of slab to center of bore strike prep
- French wood doors will have protective film over glass, and factory shrink-wrapped panels
- REDUCED HEIGHT/WIDTH OPTIONS: Reduced height will be specified from top or bottom. Reductions over 1" will require additional stile blocking. Reduced heights will vary based on door profile and species. Reduced width doors must be factory ordered, consult a sales representative for options. Extended lead times may apply to both reduced height and width
- Consult sales representative or log in to configurator for additional custom, modified and charge options
