

ANYONE CAN TALK PERFORMANCE. MIRATEC PROVES IT.

MiraTEC trim is the first and only wood composite trim to earn an evaluation report (ESR) from ICC Evaluation Service (ICC-ES).

WHAT IS ICC-ES AND WHAT IS A EVALUATION REPORT?

- The International Code Council Evaluation Service (ICC-ES) is the leading evaluation service for innovative building materials, components and systems in the United States.
- Evaluation reports, like ESR-3043, are used to verify a product complies with building code requirements.

MIRATEC STANDS ALONE

- Only MiraTEC meets the strict requirements of ICC-ES Acceptance Criteria 424 as demonstrated in ESR-3043.

ESR-3043

EVALUATION PROCESS

MiraTEC earned ESR-3043 after meeting test results that competitive products couldn't, including the 12 key measurements listed here:

✓ Thickness Swelling	✓ Accelerated Aging, based on % thickness swell
✓ Weatherability of Substrate	✓ Accelerated Aging, based on % strength retention
✓ Nail-Head Pull Through	✓ Water absorption
✓ Lateral Nail Resistance	✓ Modulus of Rupture (MOR)
✓ Impact	✓ Decay Resistance
✓ Moisture Content	✓ Hardness

SUPERIOR PERFORMANCE IS NO FLUKE.

NO OTHER TRIM PERFORMS LIKE MIRATEC

- >> Resists moisture, rot and termites.
- >> Reversible with a clear, cedar wood grain texture on one side and a smooth surface on the other.
- >> Handles like wood; easy to machine, cut and nail.
- >> Won't check, split or crack.
- >> TEC™ patented process makes MiraTEC a solid board that has uniform properties throughout.
- >> Primed with an ultra-low VOC primer containing a mildewcide.
- >> Available in 5/8", 3/4" (4/4) and 1" (5/4) thicknesses, 16' lengths and in widths of 3", 4", 5", 6", 8", 10", 12", 16" and 2" MiraTEC batten.

MIRATEC HAS CREDIBILITY IN THE BUILDING CODES

Contractors, builders, architects and others use evaluation reports, like MiraTEC's ESR-3043 to help select products under the International Building Code (IBC), the International Residential Code (IRC) and a host of other building codes.
