

What the Customer Must Do

CertainTeed may require the property owner/consumer to submit a sample of the product claimed to be defective to CertainTeed for analysis. Care and Maintenance

While CertainTeed unpainted cellular PVC resists most common stains, it can become dirty like any other product that is exposed to atmospheric conditions. Normal soil and grime can be removed with a soft bristle brush and bucket of soapy water. For especially stubborn stains, request a cleaner suitable for PVC products from your local building materials dealer. Test any cleaner on an inconspicuous area before full use.
