Railing Redefined.™

1

STATE-OF-THE-ART RESALITE[®] CORE WITH ACRYLIC CAP

Unlike Wood Plastic Composites, Resalite contains no wood or organic fibers. Weather resistant and strong, Resalite won't absorb water or rot, and resists discoloration, fading, and sagging. Transform provides superior strength and dependability in a product that is as easy to work with as traditional materials.

2

EASE OF INSTALLATION

Transform level and stair balusters attach quickly and easily with mounting adapters, saving time by eliminating the need for tedious nailing or screwing each baluster into the railing. This innovative baluster adapter works in level and stair rail configurations and saves valuable installation time!

3

UNIQUE BRACKET DESIGN

Brackets are concealed within the rail structure, providing a clean finished look. One bracket is used for all applications level, stair, and angled installations; simply cut the bracket at the an angle for the desired installation.

Railing Redefined.[™]

CABLE RAIL

4 STYLE OPTIONS

Select your beam kit and top rail style in 4 available color options; bottom rail is optional for use. LED lighted post caps and Under-Rail lighting install easily to light up your cable install!

5 SPECIALLY DESIGNED CABLE FITTINGS

Stainless steel cable fittings come in both level and stair options packed for 36" finished rail height or 42" finished rail height. Our stair fittings swivel upward or downward for your stair angle, allowing you to insert the fitting straight, and angle in the direction needed for your stairs without worrying about installing the fitting at an angle.

6 MID BALUSTER SUPPORT

Color matched to the cable, the mid baluster support (required for spans over 42") easily mounts to the top rail and can be mounted directly to the optional bottom rail, or if not using bottom rail, to your deck.

For more information on our Transform[®] Resalite[®] Railing or our other vinyl, steel, or aluminum products, visit us online at www.rdirail.com or call us a 877-420-7245.
