

LOW-COST, HIGH-PERFORMANCE DECKING & FASCIA

Trex Enhance® decking and Trex® Fascia are wood thermoplastic composite lumber (WTCL) boards with an integrated shell that covers the boards on the top surface and sides. The integrated shell consists of a proprietary surface formulation that produces a natural, wood-like grain pattern finish. An alternative to naturally durable hardwood lumber, Enhance Decking and Fascia are ICC-ES ESR-1109-certified to be a minimum of 95.4% recycled content of wood fiber and polyethylene by weight.

INDICATES
SUNCOMFORTABLE™
PRODUCTS

"Our SunComfortable™ products with heat-mitigating technology are designed to be cooler than most other composite decking products of a similar color. Although engineered to be more comfortable, they can still get hot to the touch when direct sunlight and high temperatures converge for extended periods of time. On such days, care should be taken."

FASTENERS

Trex Hideaway® Hidden Fastening Collection

Self-gapping, glass-filled nylon fastener with 304 grade stainless steel, sharp point screw for wood framing. Other approved fasteners include, color-matched composite deck screws, matching composite plugs with composite screws, color-coordinated fascia screws and uncoated stainless steel fascia screws.
